## **Notification of insider information which is directly related to Fintel Energija AD Beograd**

With the signing of the memorandum of understanding with the Chinese company Power China, the companies Fintel Energija and MK Group officially began the realization of the joint project Agrosolar in Kula. The Chinese company PowerChina is one of the biggest construction companies in the world when it comes to infrastructure and energy. Having positioned themselves as leaders in the production of electricity from wind energy, they are starting a pioneering endeavor which uses solar power and at the same time enables a sustainable agricultural production beneath the solar panels. This is the first project of its type in the Balkans and the biggest one in Europe, and the value of the investment is EUR 340 million.
